

La Sivolière

Courchevel

Nestled in the pine trees, in a peaceful area and a step away from Courchevel 1850 centre, La Sivolière remains the well-kept secret of Courchevel 1850.

The without ostentation and home-feeling property provides a first class service to the guests, thanks to the General Manager Ms. Florence Carcassonne who is describing the atmosphere of the place as "casual chic".

La Sivolière stands as a true tribute to the Savoy style, with wood and stone construction, yet offers a new look, chic and contemporary that took this stunning destination to a new level. La Sivolière chose Tristan Auer for his subtle yet chic style. The result of his work is a blend of traditional and modern, comfort and sophistication, in avoiding some spectacular effect he stayed in total harmony with the spirit of la Sivolière. The 24 Rooms, 11 Suites and 2 Duplex Apartments have an incredible and warm light with a view of the village, the slopes or the forest.

During the renovation in 2010, Tristan Auer vowed to respect the Savoy heritage by keeping the wood work and the warm and cozy ambiance of the rooms, while instilling some subtle, modern touch with contemporary furnishing.

Awarded with 3 Red Forks from the Michelin guide, "Le 1850" is the gourmet restaurant of La Sivolière, run by a young but talented Chef, Bilal Amrani.

The Mini Sivo Club caters to children in a variation of the 5* hotel, certified « Family Plus Mountain ». Much more than a regular kids club, it delivers a true 5* service to younger guests.

Upon their arrival, children are welcome at their own private desk, where they can check-in and receive their Mini Sivo passport, and choose from a wide range of activities: cooking classes, perfume workshop, jewelry workshop, maitre chocolatier workshop...

The relaxation area includes a balneotherapy and counter-current swimming pool, steam room, sauna, massage room and a fitness room equipped with cardio-training machines.

Adorned with Arabescato marble, the relaxation area benefits from natural light passing through large bay windows with a spectacular view of the valley.

Ideally located at the base of the « Dou du Midi » slope, la Sivolière has its own « ski shop », a warm and cozy lounge where a team of professionals care for the guest's equipment.

The exclusive ski-in and out "ski shop" can expeditiously outfit the guests from head to toe, including ski passes. ■
